ABBY MEDWETZ

UX / Product Designer

WORK EXPERIENCE

Magnet | UX/UI Designer

Freelance

Magnet creates high performing websites through modern design, powerful technology, and expert SEO. As a UX/UI designer, my main role is to translate initial research and brand vision into a strategic design approach that resulted in a successful user experience. I also communicated the design vision and project updates with clients.

DKA | Architectural Designer

October 2019 - present

DKA creates thoughtfully designed spaces for higher education and workplace environments. My roles range from initial research and design development to construction documents and specifications. I work directly with clients as well as my team of designers, architects, and project managers.

K2M | Architectural Design Intern

May - August 2018

K2M creates spaces for the hospitality and workplace industries through considerate creative and technical design. I worked on a variety of phases of projects while expanding my skills through CEUs and regular updates with manufacturers.
